

COMPANY PROFILE

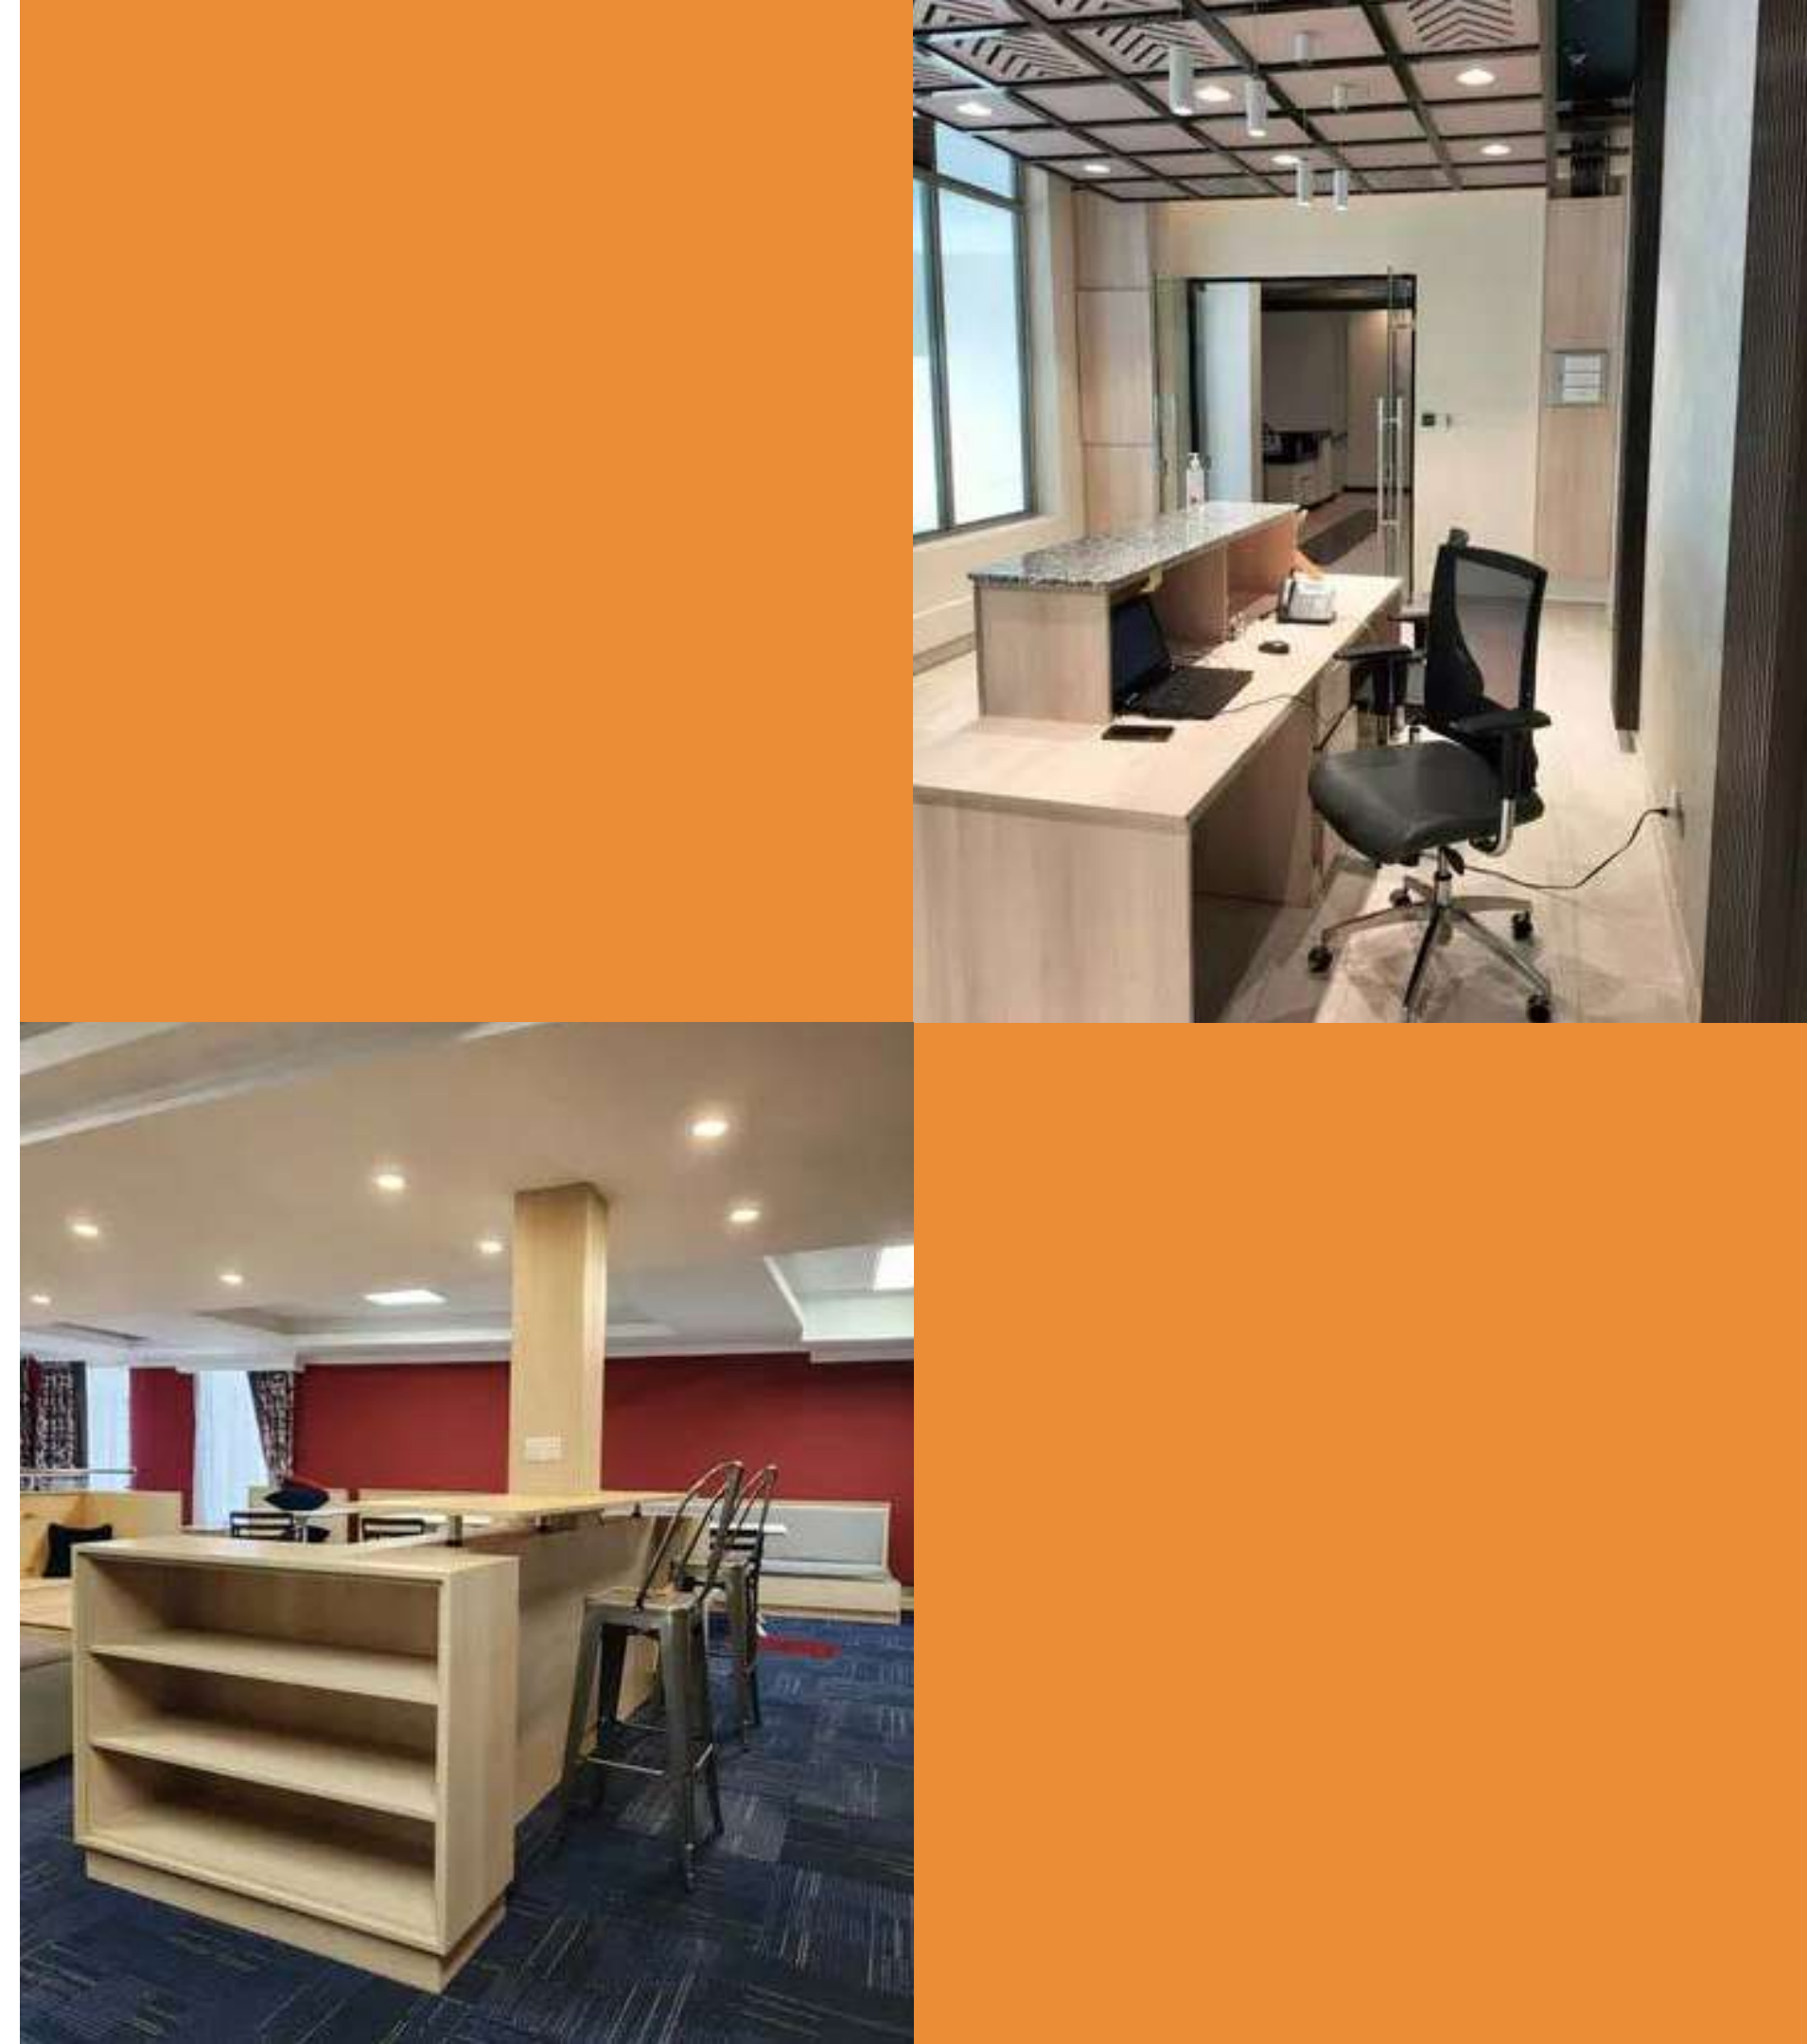

JOETECH
ENGINEERING LTD

WELCOME TO OUR COMPANY

Joetech Engineering Ltd is a forward-thinking construction and infrastructure company committed to excellence in every project. Specializing in residential, commercial, and civil engineering works, we provide end-to-end construction solutions that are both innovative and reliable. Our team combines technical expertise with a strong focus on quality, safety, and timely delivery — ensuring each build meets the highest industry standards and client expectations.

With a growing portfolio of successful projects, Joetech Engineering Ltd has established a solid reputation for trust, professionalism, and integrity. We believe in sustainable development and future-ready designs, incorporating modern technologies and environmentally conscious practices into our operations. Whether it's building homes, office complexes, or large-scale infrastructure, we are dedicated to shaping lasting spaces that serve communities and stand the test of time.

VISION & MISSION

Mission

To deliver high-quality, innovative, and sustainable construction solutions that exceed client expectations. We are committed to building safe, durable, and efficient structures while upholding integrity, professionalism, and environmental responsibility in every project we undertake.

Vision

To be a leading construction company recognized for transforming skylines, empowering communities, and setting new benchmarks in construction excellence across the region and beyond.

WHAT DO YOU KNOW ABOUT OUR COMPANY?

BUILD CULTURE

At Joetech Engineering Ltd , our Build service offers a streamlined, all-in-one construction solution — combining Fit-out works, residential development, houses renovations, commercial building & Offices execution under one roof. This integrated model eliminates the disconnect between designers and builders, ensuring faster delivery, tighter cost control, and improved quality from start to finish. We work closely with clients from the conceptual phase through to final handover, offering expert guidance on planning, budgeting, material selection, structural systems, and sustainability.

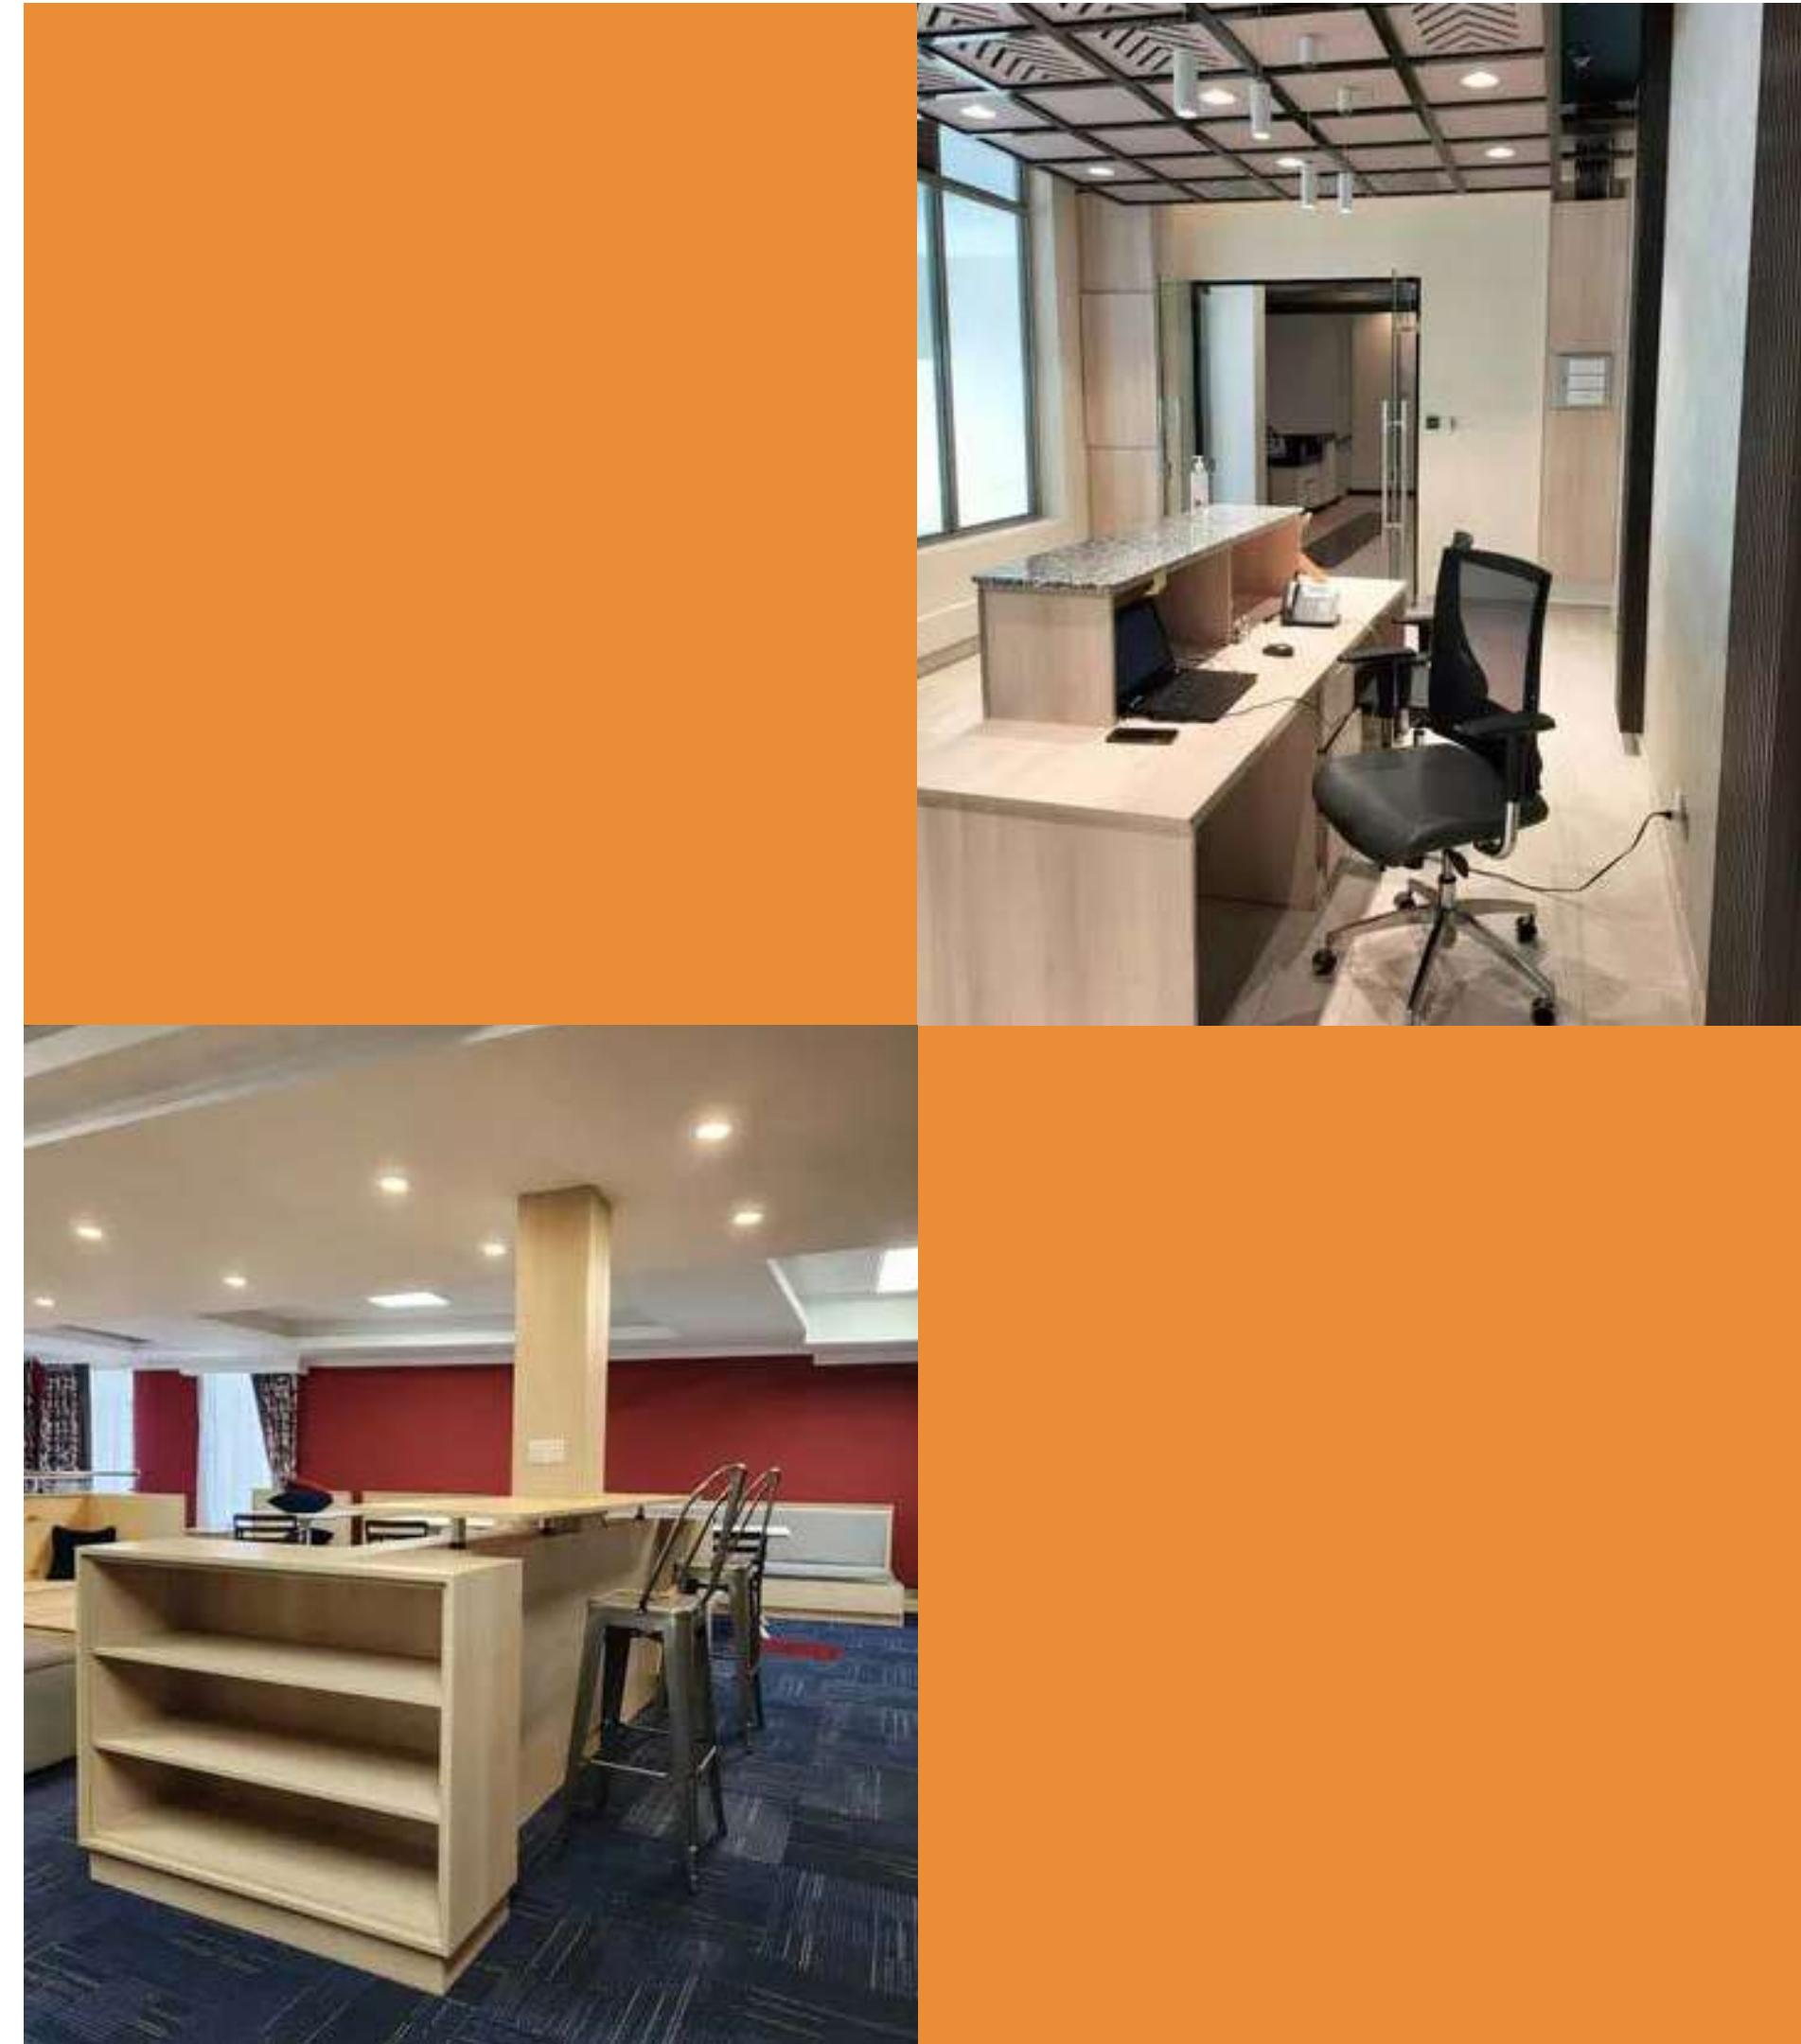

DIRECTOR'S PROFILE

JOSEPH KIMANI

Joseph Kimani is a seasoned Construction Project Manager and Director at Joetech Engineering Ltd , bringing over 7 years of diverse experience in the building and civil engineering sectors across Kenya. His track record spans complex commercial fit-outs, high-end residential developments, and institutional projects, with a particular strength in contract administration under the JBC and FIDIC suites.

Joseph is known for his hands-on leadership approach, ensuring seamless project execution from inception to completion. His experience in managing time-critical fit-out works and multi-phase structural projects has consistently delivered results within budget and programme, while upholding quality and safety standards. He possesses advanced skills in project planning, risk management, and contractual compliance, with in-depth knowledge of project scheduling tools and methodologies. He has led project teams through challenging delivery timelines, fostering productive relationships with consultants, clients, and subcontractors alike.

Joseph is currently pursuing PMP certification to further strengthen his project management credentials. His commitment to structured project delivery, cost control, and clear communication reflects the core values of Joetech Engineering Ltd .

OVERVIEW

01

Concept & Planning

We begin by understanding your vision, needs, and budget. Our team conducts site assessments, gathers requirements, and develops initial design concepts. This stage includes feasibility studies, preliminary timelines, and a clear project brief — setting the foundation for informed decision-making.

02

Design Development

Once the concept is approved, our architects and engineers work together to create detailed drawings, 3D visualizations, and technical specifications. This includes architectural design, structural layouts, and MEP systems — all developed with construction feasibility, cost-efficiency, and compliance in mind.

03

Construction & Execution

With design finalized, our construction team takes over. We manage procurement, site preparation, and all on-site activities, ensuring materials, manpower, and timelines are optimized. Our approach keeps the project on budget and schedule while maintaining high safety and quality standards.

04

Handover & Aftercare

Upon completion, we conduct final inspections, quality checks, and hand over all documentation and keys. Our commitment doesn't end there — we offer aftercare support, warranties, and maintenance guidance to ensure the longevity and performance of the built structure.

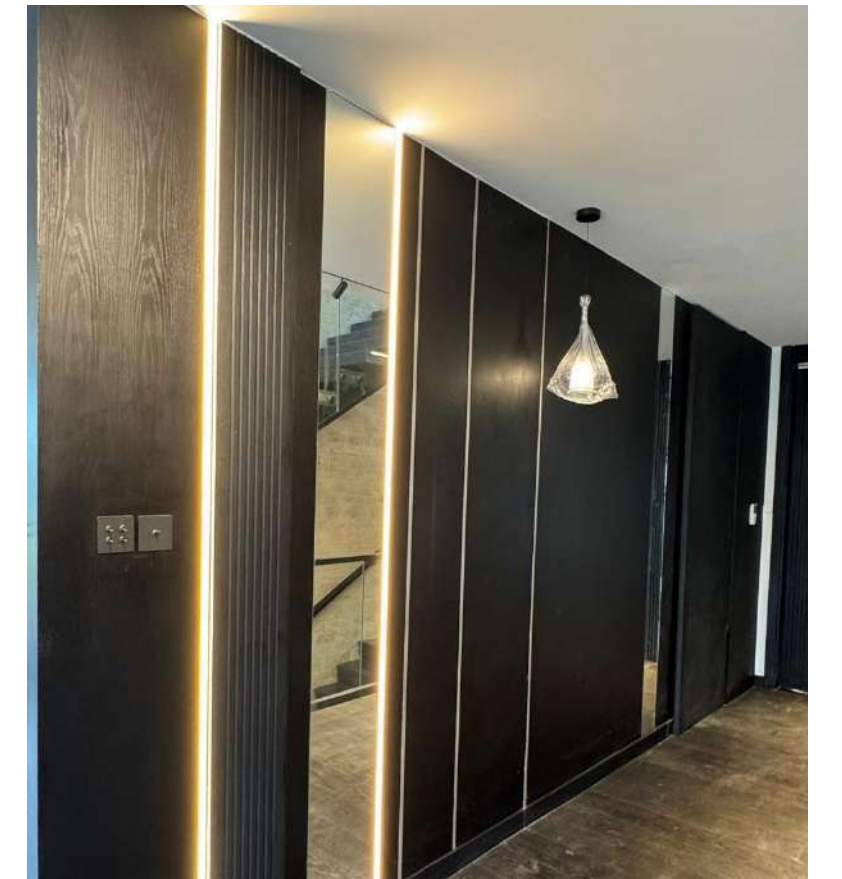

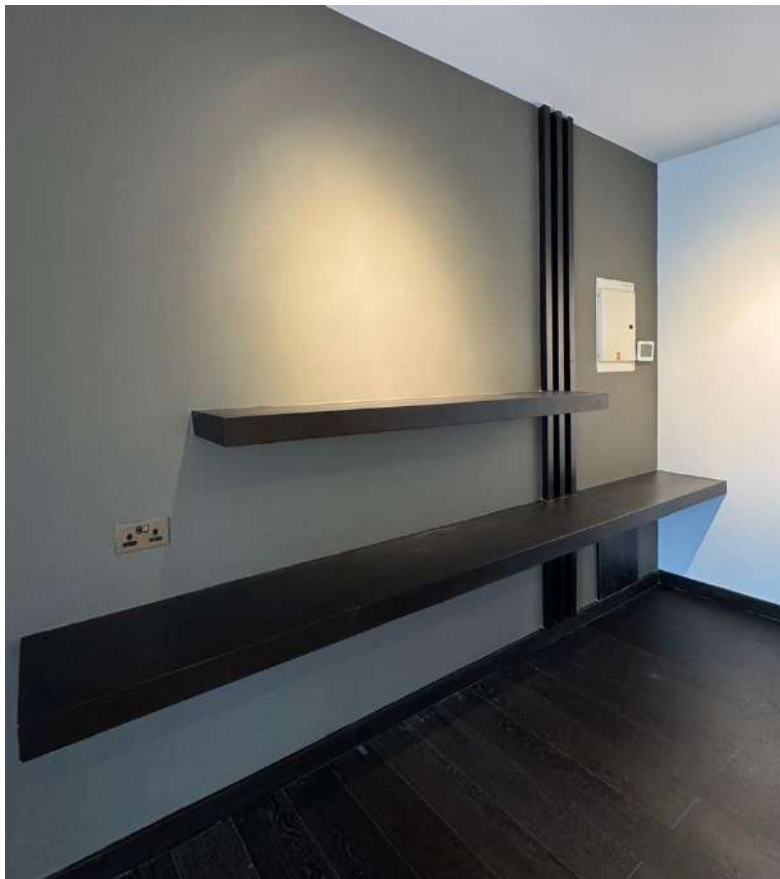

OUR PROJECTS

Each project tells a story of collaboration, creativity, and precision. From design to execution, we deliver tailored solutions that meet our clients' needs while exceeding expectations. Here is a selection of our works , showcasing our commitment to quality and innovation.
